## Dermatological Shampoo with Drying, Keratolytic, Lipolytic and Deodorizing Effects

### Presentation:

236 ml and 355 ml

### Characteristics:

- Support in veterinary treatment of choice in dermatological processes where yeasts are involved.
- Antibiotic and Azole free:
  - Helps fight resistance.
  - Helps rationalize the use of antibiotics and azoles, preserving their efficacy.
- Support in keratoseborrheic complex and keratinization disorders — Lipolytic and keratolytic effects.
- Active ingredients with synergistic effect - Helps to equilibrate seborrhoea and microflora vicious circle.
- With Ceramides - Restorative action the epithelium and of the barrier effect of the skin.
- Restores the epithelium and increases the barrier effect of the skin.
- Exfoliating action — Removes dead cells allowing a better contact between active ingredients and epithelium.
- Can be combined or be reinforced with CUTANIA® GlycoZoo Spray for a greater effect.
- Gentle and pleasant smell.
- Suitable for horses.

### Key Constituents:

Boric Acid	2 %
Glycolic Acid	2 %
Ceramides	

### Recommended Use:

- As a help in:
  - Dermatological processes where yeasts are involved.
  - Keratoseborrheic complex: seborrhoea, sebaceous adenitis, etc.
- **Kerato-seborrheic skin.**
- Conditions that may benefit from the acidifying effect of the boric acid.
- Conditions in which the exfoliating effect of glycolic acid can be useful.
- Suitable for short and long-term use.

### How to Use:

In some cases it may be advisable to trim the hair before washing the animal to improve the contact between the product and the areas to be treated.

Daily use is possible, but frequency must be determined on each particular case.

- Wet the coat thoroughly with warm water.
- Apply CUTANIA® GlycoZoo Shampoo and massage deeply hair and skin.
- Leave for 5-10 minutes and rinse off with plenty of warm water.
- Dry the animal with a towel or hair dryer.

**Initial:** 2-3 applications/week until the process is controlled.

**Maintenance:** 1 application/week.

Leave for  
5 minutes
