

# Confis

## GATTI

Support joint  
metabolism in case  
of osteoarthritis

**Candioli**  
PHARMA

# OSTEOARTHRITIS IN CATS

## SPECIFICATIONS

- **High frequency**, up to 90% in adult and elderly cats<sup>1,4,5,6,8,9</sup>
- Pathology underestimated because the clinical symptoms are often nuanced and **pain and lameness are not always evident**<sup>2,5,6,8</sup>, so to date the clinical diagnosis is of irrelevant frequency<sup>8</sup>
- In order of frequency, the affected joints are: **hip, knee, tarsus** and **elbow**<sup>5,6</sup>. The **spinal column is interested in more than 50% of cases**<sup>1,4,6</sup>

## CLINICAL MANIFESTATIONS

- **Reduced mobility**<sup>2,6</sup>: frequency and height of jumps, play and running
- **Behavioural changes**<sup>2,6</sup>: grooming and nails, droppings in inappropriate places, frequently lying down
- **Pain and lameness**<sup>2,6</sup>: intermittent, only in advanced stages

## TREATMENT

**Surgical treatment for conditions of joint instability and ligament rupture**<sup>2,3,5,6,8</sup>

**Conservative multimodal approach:**

- a. Lifestyle changes and physical exercise control<sup>3,6,7,8,9</sup>
- b. Physiotherapy<sup>3,5,6,7,8</sup>
- c. Dietary measures (reduction of obesity<sup>3,8,11</sup>, , omega-3 fatty acids EPA and DHA<sup>2,3,6,7,11</sup>)
- d. Pharmacological treatment<sup>1,2,3,5,6,7,8,9</sup> (FANs, painkillers, etc.)
- e. Glycosaminoglycans<sup>3,5,6,7,11</sup> (chondroitin sulfate, glucosamine)

## Chondroitin Sulfate

100% purity / molecular weight 16.9 kDa

## Glucosamine HCl

purity >99% / molecular weight 216 Da

**MAXIMUM LEVEL  
OF PURITY AND LOW  
MOLECULAR WEIGHT**

**SUPPORT JOINT  
METABOLISM  
IN CASE OF  
OSTEOARTHRITIS**

# Confis GATTI

# Confis GATTI

## Support joint metabolism in case of osteoarthritis

**Confis GATTI** is a complementary dietary food for cats, formulated to support joint metabolism in case of osteoarthritis. **Confis GATTI** is presented in capsules containing an appetizing powder. The capsules of **Confis GATTI** can be opened and the content mixed with food or spread on it. If the cat eats dry food, the food should be moistened with a small amount of water, so that the dust can adhere. Alternatively, the contents of the capsule can be mixed with a small amount of moist food to ensure that the product is fully consumed. Administer **Confis GATTI** according to the following daily quantities:

Capsules per day	
0-5 kg b.w. ....	1 capsule
5-10 kg b.w. ....	2 capsules

*Recommended period of use: initially up to 3 months. It is recommended to seek the advice of a veterinarian before use or before extending the period of use. It is recommended to carry out cycles of 4/6 weeks to obtain the pre-seen well on the joint metabolism.*
